HAPPY FALL!!

Hope this finds you all well!
We have started our fall run of cattle with the September 9th Round Up sale already behind us. Our Round Up sale went very well! The big steers are bringing a premium in our current market. This time of year, cattle that can be fat in April always bring a little more.
Check our schedule or give us a call to find out about a feeder sale that will work for you.

We have been busy at the yard with more improvements. This year we have rebuilt more pens and our squeeze chute area to make the sale run more efficiently.

ABOUT THE MARKET

The market has been tough lately, we are hopeful things will change for the better and make for an even better fall. The demand for calves should continue to grow as we get closer to cooler, more consistent weather.

The butcher cow market has been steady through the later part of summer.

FEEDER SALES

****We have changed the sale order on scheduled feeder sale days. We start with small animals at 11am and go directly into the feeder calves, then sell butcher animals. This has been a good change for our consignors selling calves on those days, to be sold in a timely manner.****

VIDEO SALES

We have had good success with truckload lots on our video sales. Call Jeff for upcoming sales and information.
